

Rapid Fire Session

Opening Plenary Session Subcommittee:

Jai Cole

Rebecca Napier

Sadie Drescher

Mark Secrist

Mike Galvin

Rich Starr

Neely Law

Paula Worden

Mike Miller

- **What is a Rapid Fire Presentation?**
- **Why did we select this approach?**
- **What are we hoping to accomplish?**

- **How to Comment?**

Responding via the Conference App

Download Yapp from Google Play or the iStore

Open, then enter **H2U9LB**

Or with Pen or Pencil

Visit the Rapid-Fire Station near the conference desk.

Complete a response form and Drop it in a basket

What happens after I respond?

Comments will be summarized and presented at the close of the conference.

Review a detailed summary on the website.

#1 - What steps can be done to have stream restoration projects be more embraced by local communities?

#2 - What strategies can be used to implement projects more efficiently and effectively?

3a - How do we improve biological assessment and design and incentivize biological uplift as a project goal?

3b - How do we improve/conduct biological assessments to ensure critical functions are assessed and included in the design development phase?

3c - How can designers incorporate designers incorporate aquatic species-specific habitat/function needs into the design development phase?

3d - How can we incentivize biological uplift as a project goal?

4 - How do we ensure what is designed is what is built?

Will: What strategies and or methods can employed to achieve 10 million new trees planted in Pennsylvania by 2025
